

Job Description – User Experience and UI designer - Contract, London

Line Manager : Product Manager

Location : London, United Kingdom

Purpose of Role

Restrata is a global provider of software and technology enabled emergency response and professional services to the oil and gas and energy industry. Restrata provides real time global visibility client's workforce, 24/7 managed services assisting clients managing their employee risk exposure and crisis management needs and professional services helping clients define and manage their crisis and emergency response requirements.

Restrata is looking for a user experience and user interface designer, experienced in discovery and formulation of user behaviour into web and mobile solutions, to join our team in London. Be part of an exciting experience that brings together mobile, IoT and the cloud to ensure employee safety and business continuity.

This will be a contract role working on a greenfield software development project. Be ready to present a portfolio of your previous work.

Key Responsibilities:

- Work with the whole product development team from ideas through to creating layouts and design work for the developers
- Quickly iterate workflows and wireframe designs to validate user stories and refine mercilessly into a final model for development
- Work closely with the front-end developers to ensure each component of the user interface fits with the design
- Workshop ideas and translate user and customer feedback into journeys and designs
- Build and design the branding materials and layouts ready for the web and mobile development
- Help test developed components and ensure adherence with the design
- Provide estimates on work as part of the team's overall project planning

Skills & Experience:

- 3+ years' experience in UX and UI of Web & Mobile Apps
- User journey discovery and creating personas and end to end user experiences
- Ability to build prototypes to prove or disprove ideas and quickly shape the product flow and design
- Comfortable with tools such as **Sketch** and **Invision** required from prototype to designs and layouts
- Working as part of an agile and rapidly innovating team environment
- Strong communication skills, both verbal and written
- Eligible to work in the UK
