

RELATIVE AND MEDIA RESPONSE SERVICES

Restrata maintains a pool of Relative and Media Responders who can be utilised to provide outsourced response service on behalf of clients globally, utilising press statements and Next of Kin (NOK) information as provided by the Incident Management Team and feeding back any appropriate information.

These teams are maintained on call 24/7/365 and available to respond to an emergency within 1 hour of mobilisation.

'The Response teams can utilise Restrata's industry leading facilities at the Global Operations Control Centre (GOCC) or alternatively mobilise to a client's facilities. The teams are suitably trained with experience from regular exercises and many with a number of real-life mobilisations. Included in this service is full translation capability for all languages.
